

Mr. M. Thompson
Skyfly Technologies Ltd
London
SW6 3BU

1st June 2022

Dear Michael

I am pleased that the LAA is in a position to support the Skyfly project, with our engineering team working with you to develop means of engineering verification and compliance with the Civil Aviation Authority regulation, allowing this hugely exciting project to take to the skies.

We look forward to working with you, as Skyfly's technology is very much in line with the spirit of innovation which is a key part of our Association's DNA. Skyfly has the potential both to revolutionise sports and recreational aviation, and to also build for the future in terms of new, sustainable air transport concepts.

Here's to the next steps to get Skyfly` airborne!

Stephen Slater
CEO
Light Aircraft Association
